Director of Interventional Radiology,
Medical Director of Noninvasive Vascular Laboratory.
Retired on January 1, 2020*

Biography:

Born in Jhelum, raised in Rawalpindi and Wah Cantt, with family roots in Multan. Attended Cadet College Hasan Abdal for five memorable years, then studied medicine at KEMC, Lahore, where I excelled in sports and music. Moved to the USA in 1975 for Residency in Diagnostic Radiology and Fellowship in Interventional Radiology.

Married in 1976, raising three daughters: Amber, a CPA; Sabah, a Data Scientist with Deloitte; and Asma, a physician and Chief of Anesthesiology at HCA University Hospital. After 42 years of marriage, my wife Anjum passed away in 2018. I retired in 2020 and remarried Shawn in 2020. We now split time between Michigan and Florida, traveling internationally. Grateful for a beautiful and peaceful life.
